

The screenshot displays the Microsoft Visual Basic for Applications environment for a project named 'Cardbase Security'. The main workspace shows a form with various fields and controls. The 'Form' window is active, showing a form with fields for 'Date Added', 'Remove Date', 'HE Number', 'First Name', 'Surname', 'Position', 'Department', 'Hospital Site', 'Comment', and checkboxes for 'Administrator' and 'Supervisor'. The 'Properties' window is open, showing the 'Form' selection type. The 'Project - Cardbase Security' window lists the form and its associated modules. The 'Option Compare Database' window shows the 'Private Sub Form\_Load()' event procedure.
